

Private Lesson Professional Instructors

Private lessons are the key to developing an outstanding musical organization. Students who study their instruments privately with a professional show rapid become a stronger contributor to the overall success of the band. Private instruction has a great impact on the individual student and on our band program both this year and in the future. Mrs. Pedziwater will assist you, if needed, in selecting a private instructor. The key to satisfactory results from private instruction is to start as soon as possible....SO START NOW!!

Please call one of our very qualified private lesson teachers to set up your weekly lesson.
